Sales Order Automation Solution
On-Premise or in the Cloud

ancora was developed to bring simplicity to a technology that historically has been complex, over-priced and difficult to configure, install, use and maintain.

Are you experiencing any of the following with Sales Order processing today?

- Manual data entry
- Eliminating data entry errors
- Processing delays fulfilling orders
- Handling peak demand periods
- Printing or making copies of Sales Orders
- Manually matching correct item/SKU numbers
- Lengthy Customer Service response times
- Limited management visibility into process
- Manually filing or scanning Sales Orders
- Locating lost or misfiled Sales Orders

Manual Sales Order processing is labor intensive, time consuming and expensive, costing between $24 and $41 USD per Order, depending on the complexity of the order

Here’s how ancoraDocs Sales Orders can help you!

- **Capture Sales Orders the Minute They Arrive** from any scanner, fax server, MFD, email or watched folder regardless of country of origin or language.
- **Document Classification** will automatically separate your Sales Orders from supporting documents like shipping instructions, cancellations, etc.
- **Reduce Manual Data Entry** by 60% to 90% by automatically extracting header, footer, and line-item-detail data elements to share with your ERP or workflow solution.
- **Electronically Route Sales Orders for Processing and Approval** utilizing ancora’s flexible ability to easily export images and data to your ERP/ECM solution.
- **Simple Implementation** is achieved using our unique Auto-Find technology. ancora learns from users’ interactions when processing Sales Orders without endless hours of building templates or altering business rules. Our patented machine-learning algorithms allow for fast setup of previously unseen Sales Orders.
- **Simple Integration with 3rd Party Applications** provides the ability to easily move the extracted data to your ERP or workflow solution.
- **Faster Processing enables Customer Service** to contact customers sooner regarding problem orders and retrieve information faster when handling customer inquiries.
